

# DUDLEY ILLUSION BIDET

Specifically designed for wall hung bidets sited on a flat wall or in a corner and can be used within furniture.

## INSTALLATION INSTRUCTIONS

### 1. Set frame height .

To adjust height of frame slacken off bolts holding adjustable legs in frame (A). Adjust the position of the legs so that the Bidet rim is 400mm above the floor level. Re-tighten the bolts clamping the legs into position. The feet can be rotated, into any position to suit installation, by using the screw at the foot of the leg. (B)

### 2. Fit wall straps.

The wall straps (C) are packed separately and can be used in any orientation dependant on the depth of installation required. Minimum depth is 200mm, maximum depth is 330mm. Attach firmly to frame using the M8 bolts, nuts and washers provided. It is recommended that fixings are as close as possible to the horizontal part of the brackets.

### 3. Fixing to wall and floor.

Attach frame securely to wall and floor using the plugs, washers and hex head screws provided. See diagrams overleaf for corner fitting. It is the responsibility of the installer to ensure that these fixings in the wall and floor are strong enough to adequately support the load which will be applied to the bidet in use.

### 4. Fitting waste pipe.

Adjust the waste pipe clamp (D) position to suit the bidet being fitted. When in the correct position, complete plumbing of waste pipe.

### 5. Fitting bidet.

Adjust the water inlet brackets to suit bidet and connect suitable hoses. Ensure M12 allthread protrudes sufficiently for correct and secure installation of the bidet. See fig. 1 for installation detail.

Foot rotational locking screw at end of adjustable leg. (B)

### Built-in System in Furniture

### Built-in System with dry wall

Note.  
For distances between 160 - 200 mm the  
brackets (C) will need to be reduced in  
length by cutting.
